## Rapidprint Automatic Time Stamps

Rapidprint has been a leader in the development and production of automatic time and date stamps for over 60 years.

Whenever you need a printed record of time and date, a Rapidprint automatic time stamp can do the job. Simply insert the form, document, or letter for an instantaneous time-date imprint.

Model AR-E

### AR-E Series:

Our most popular models, these AR-E Series stamps print anywhere across the *top or bottom* of a document (prints horizontal to the inserted edge of the document).

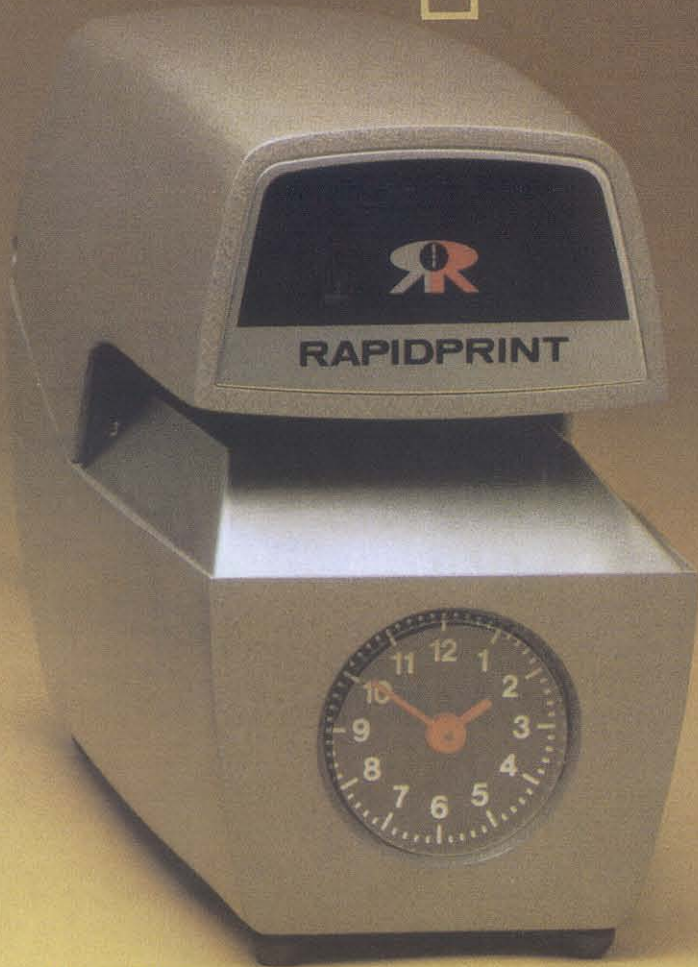

### VAR-E Series:

When an imprint must be located further than 1 5/8" from the top or bottom of a document the VAR-E series is needed. These stamps print anywhere along the *left or right margin* of a document (prints perpendicular to the inserted edge.) See *back page* for VAR-E series information.

### TIME STAMP APPLICATIONS
